Dear Hazelwood School District Community,

After 40 years of public service in education working in school districts across the country, I can honestly share that the past two years as your Hazelwood School District Superintendent have been extremely rewarding. I’ve gotten to know staff, parents, and impressive students from our district that is 18,000 students strong and growing; I now call this incredible community home. With great hope for the future, I eagerly share our five-year Hazelwood NOW Strategic Plan.

We have purposefully built the strategic plan on our unique Hazelwood legacy, while providing an inspired direction for the future. Our Hazelwood NOW initiatives include New and Innovative Programs, Options and Opportunities, and Working Together to Build Coalitions and Capacity. During the summer of 2017, we outlined goals and initiatives designed to improve student achievement, enhance professional growth, and increase parent and community engagement.

As we all know, however, goals cannot be outlined—or achieved—in a vacuum. Thus, the winter months were spent conceptualizing 2018 strategic planning focus group meetings involving our students, parents, staff, and community stakeholders. In March 2018, these meetings occurred and allowed all of us to gain new insights into our district’s strengths, weaknesses, opportunities, and threats. I am thankful for your support and engagement in such meaningful work.

Our Hazelwood NOW Strategic Plan combines the perspectives of the strategic planning focus group participants with the Hazelwood NOW initiatives and translates them into seven strategic priorities: student support services, staff support services, technology, parent involvement and community partnerships, curriculum and instruction, climate and culture, and district finance. With our eyes on these priorities, we remain focused on becoming one of the highest-achieving school systems in Missouri.

The Hazelwood NOW Strategic Plan is a plan we created together. It builds on current momentum and ensures a dedicated path towards achievement, collaboration, and innovation. It gives me great pleasure to serve as your superintendent, and I look forward to our evolving future.

Thank you for your ongoing engagement in our community and the Hazelwood School District.

Sincerely,

Dr. Nettie Collins-Hart

THE WHY:
Our mission explains our fundamental purpose as an organization.
In a culture of high expectations and excellence, our students will become lifelong learners equipped with 21st century skills for success as global citizens.

THE WHAT:
Our vision captures the future we seek to create for our students.
The Hazelwood School District develops culturally-aware critical thinkers prepared to lead with 21st century skills in an ever-evolving global society.

THE HOW:
Our Theory of Action describes the specific methods we will use to achieve our vision.
When we collaborate as a solution-oriented team to focus and close learning gaps, support socioemotional needs, and approach all challenges with growth mindsets, and when we create college or career pathways for all children, then we will equip our students to become lifelong learners with 21st century skills for success as global citizens.

THE THINGS WE VALUE:
Our value statements drive our culture because they act as reminders of the how, why, and what—and our shared vision.

- High student achievement based on multiple measures as we prepare students to become global citizens.
- A diverse staff that is caring, culturally competent, well-trained, and highly effective in their roles.
- Holding ourselves accountable for a culture of excellence with high standards in both academics and behavior.
- Maintaining fiscal responsibility of the district’s assets and resources (knowing when and on what to spend to achieve excellence).
- A supportive learning environment that fosters healthy socioemotional development for all students.
- Preparing students with global thinking and skills to make them productive in college, career, and life in the 21st century.
- Community involvement that drives high parental and community/stakeholder engagement, effective partnerships, and positive relationships through informative communications.
This plan, developed by parents, students, community stakeholders, and staff, is a comprehensive roadmap that guides the acquisition and allocation of resources to achieve mutually-agreed-upon strategic priorities. Our five-year Hazelwood NOW Strategic Plan is a tool that provides guidance on fulfilling our mission and vision with maximum efficiency and impact. This plan includes our unified mission, vision, value statements, priorities, and goals. Our mission is a succinct statement that articulates what the district does (our programs) and why we do it (the purpose for providing such programs). Our vision is an aspirational description of what we would like to achieve or accomplish. Our value statements are our basic beliefs and guiding principles for how we engage and behave to meet the needs of our students, parents, colleagues, and the broader community. Our common goals are specific, measurable, and achievable; underpinning each goal are core strategies that will help us achieve our mission.

**OUR PROCESS**

The Hazelwood NOW Strategic Plan provides focus and action for implementing the NOW initiatives (New and Innovative Programs, Options and Opportunities, and Working together with parents, staff, and community to build coalitions and capacity). This plan allows for specific, measurable, and attainable goals, all of which contribute to staff recruitment and retention, student excellence, district efficacy, and community engagement. The plan is evidence of what can be accomplished through focused collaboration; this document was drafted with input from faculty, staff, students, board members and community stakeholders. It is a testament to the breadth and depth of perspectives necessary to make the shifts required to succeed in today’s ever-evolving global society.

Together, we are responsible for the education of approximately 18,000 students. It is only fitting that a strategic plan drafted to serve our students concludes with a summary of the “Hazelwood Way NOW” student characteristics. For our students to become lifelong learners equipped with 21st century skills for success as global citizens, we believe all of these characteristics must be embodied by our students and embedded in our school district culture. This strategic plan aims to equip our students with these characteristics so that they can graduate as informed, productive members of society.
