ABOUT HSD

Hazelwood School District (HSD) is located in suburban St. Louis, Missouri and is the second largest district in St. Louis County. HSD is fully accredited by the Missouri Department of Elementary and Secondary Education.

Home to more than 17,500 students, the district has 20 elementary schools, six middle schools, and three high schools, plus separate campuses for early childhood education, gifted, and individualized (alternative) learning.

Hazelwood Schools Continue Virtual Classes until Jan. 8

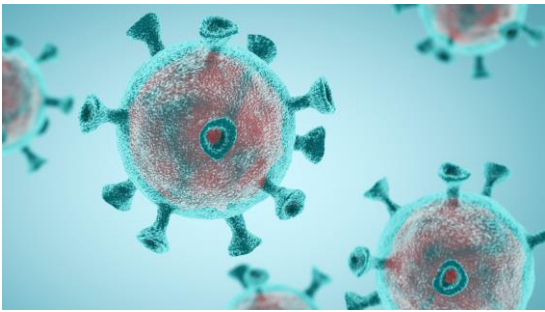

The Hazelwood School District Board of Education voted last week for all students to continue attending school 100% virtually through the end of the first semester (Jan. 8, 2021).

The COVID-19 metrics in the primary zip codes Hazelwood School District (63031, 63033, 63034, 63136, 63138, 63042) serves will continue to play a major role in the Board's decisions.

North County's other largest school district, Ferguson-Florissant had previously announced all virtual classes will continue in the district at least until the next semester in January.

The Hazelwood School District board also approved in-person testing for special education services and some additional assessments for specialized programming. The board approved a slow reemergence of in-person high school athletics/activities. A more detailed update about in-person high school athletics/activities will be shared as soon as possible.

Missouri tracks COVID data by school district

ST. LOUIS – The State of Missouri is now keeping track of how many students in each school district around Missouri have gotten COVID.

Missouri's Department of Health and Senior Services has created a dashboard on the Show Me Strong Recovery Plan website to keep track of [COVID-19 data in school districts](#).

The [school districts](#) are colored different shades of blue depending on how many cases have been found there in the past 14 day period. The lightest shade shows the school district has had 1-10 cases of COVID, the next darker shade shows 11-20 cases, the next darker shade shows 21-30, the next darker shade shows 31-40 and the darkest shade shows 41 cases and up.

The school districts in the St. Louis Region that have had 41 or more cases from [October 6 to October 20](#) include the St. Louis City School District, the Rockwood School District, the Parkway School District, the Wentzville School District, the Fort Zumwalt School District, the Hazelwood School District, the Mehlville School District, the Kirkwood School District, and the Fox School District.
