Independent Auditors' Report

Board of Education Hazelwood School District

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of Hazelwood School District as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Hazelwood School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the modified cash basis financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of Hazelwood School District as of June 30, 2015, and the respective changes in modified cash basis financial position, thereof for the year then ended in accordance with the basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to that matter.

Other Matters

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Hazelwood School District's basic financial statements. The management's discussion and analysis on pages 5 through 16 and budgetary comparison information on pages 40 through 45, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 6, 2015, on our consideration of Hazelwood School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Hazelwood School District's internal control over financial reporting and compliance.

Kerber Eck & Braechel LLP

St. Louis, Missouri November 6, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

The management's discussion and analysis (MD&A) of Hazelwood School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

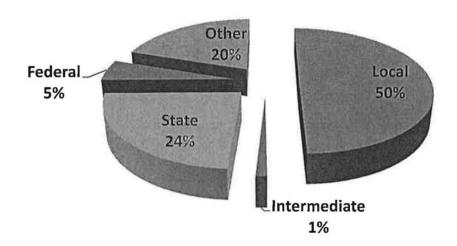

Financial Highlights

- ❖ Total revenues for the fiscal year amounted to \$207.6 million. General revenues accounted for \$175.4 million or eighty-four percent of total revenues. Charges for services, operating grants and contributions, and capital grants and contributions accounted for \$32.2 million or sixteen percent of total revenues.
- ❖ Net Position decreased for the fiscal year 2015 from 2014 by \$20 million. This twenty-two percent decrease is due the expenditure of bond proceeds (\$6.8 million), a decrease in the debt service fund balance (\$3.3 million) and an operating deficit.
- The primary resources available to the District were:
 - Local revenues, primarily tax receipts, which totaled \$127.2 million or fifty percent of total revenue,
 - State revenues, primarily basic formula, entitlements and special grants, which totaled \$62.3 million or twenty-four percent of total revenue,
 - Intermediate revenue, primarily state assessed utilities, totaling \$3.0 million or one percent of total revenue,
 - Federal revenues, primarily special grants, totaling \$13.6 million or five percent of total revenues.
 - Other revenues, primarily bond issue proceeds, totaling \$50 million or twenty percent of total revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Financial Highlights (continued)

Revenue By Source (Fund Statements) For The Year Ended June 30, 2015

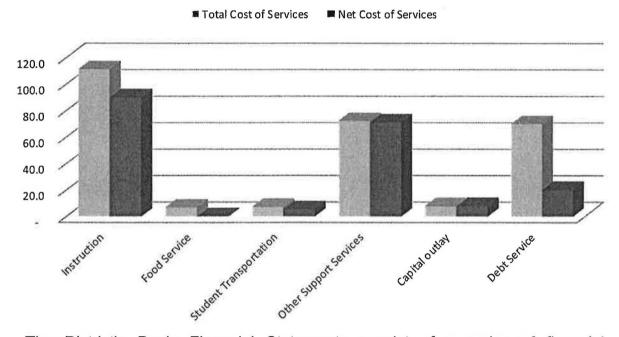

❖ District expenses totaled \$276.1 million, of which \$80.6 million were offset by program specific charges for services, grants or contributions. General revenues were not adequate to provide for these programs. The District used reserves to provide for the remainder.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Financial Highlights (continued)

Comparison of Total Cost to Net Cost of Services June 30, 2015

The District's Basic Financial Statements consist of a series of financial statements and the associated notes to those statements. These statements are organized so the reader can understand the operations of the District as a whole, i.e., an entire operating entity. The "Basic Financial Statements" section, consisting of the Statement of Net Position, and the Statement of Activities, provide highly consolidated financial information, and render a government-wide perspective of the District's financial condition. They present an aggregate view of the District's finances. These statements seek to answer the question, "How did the District do financially during the 2014-2015 fiscal year?" These statements include all assets and liabilities using the modified cash basis of accounting. The cash basis takes into account the District's current year revenues when received and expenses when paid.

By showing the change in Net Position for the year, the reader may ascertain whether the District's financial condition has improved or deteriorated. The changes, which are discussed in the MD&A, may be financial or non-financial in nature. Non-financial factors which may have an impact on the District's financial condition include increases in or erosion of the property tax base within the District, facilities maintenance and condition, mandated educational programs for which little or no funding is provided, or other external factors.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Financial Highlights (continued)

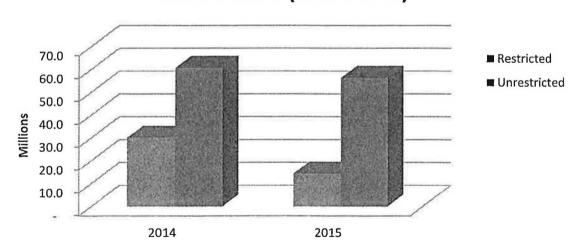

To provide more in-depth reporting of the District's financial position and the results of operations, fund basis financial information is presented in the "Fund Financial Statements" Section. These Fund Financial Statements, which should be familiar to those who have read previous governmental financial statements, report governmental activities on more of a current rather than long-term basis, indicating sources and uses of funding, as well as resources available for spending in future periods.

Fund Financial Statements also provide more in-depth data on the District's most significant funds, specifically its General Fund, Special Revenue (Teachers') Fund, Debt Service Fund, Capital Projects Fund and Bond Issue Funds. These funds are considered "major funds" under GASB Statement No. 34.

Governmental Activities

The District's net position was \$70.7 million as of June 30, 2015 and \$90.8 million as of June 30, 2014. Of these amounts, the District had restricted net position of \$14.4 million and \$30.1 million at June 30, 2015, and 2014, respectively. Restricted net position is reported separately to show legal restraints from debt covenants and enabling legislation that limit the District's ability to use net position for day-to-day operations.

Net Position (In Millions)

Our following analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the District's governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Governmental Activities (continued)

Table 1 Net Position (in millions) June 30,

		2014			
Current and other assets	\$	70.7	\$	90.8	
Total assets	\$	70.7	\$	90.8	
Net Position:					
Restricted	\$	14.4	\$	30.1	
Unrestricted		56.3		60.7	
Total net position	\$	70.7	\$	90.8	

The \$56.3 million in unrestricted net position of governmental activities represents the *accumulated* results of all past years' operations.

The results of this year's operations for the District as a whole are reported in the Statement of Activities. Table 2 takes the rounded information from that Statement, and rearranges them slightly to present our total revenues versus our total expenses for the year.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Governmental Activities (continued)

Table 2 Changes in Net Position (in millions) For the Year Ended June 30,

	2015	2014		
Revenues:			•	
Program revenues:				
Charges for services	\$ 4.3	\$	6.1	
Federal grants	14.3		14.4	
State grants	13.6		14.8	
Bond proceeds	48.5		5.4	
General revenues:				
Taxes	125.7		124.0	
State aid	48.3		42.1	
Grants and other	1.1		0.3	
Bond proceeds	<u>≥</u> v		47.5	
Investment earnings	0.3		0.2	
Total revenues	256.1		254.8	
Program/Function Expenses:	 			
Instruction	111.3		110.4	
Food service	7.1		6.8	
Student transportation	7.3		7.3	
Other support services	72.4		68.3	
Capital outlay	8.0		41.8	
Debt service	70.0		26.8	
Total expenses	276.1		261.4	
Increase (decrease) in net position	\$ (20.0)	\$	(6.6)	

As reported in the *Statement of Activities*, the cost of the District's activities for the year ended June 30, 2015, was \$276.1 million. However, not all of this cost was borne by the taxpayers of Hazelwood School District. Of this amount, \$4.3 million was paid by those who used or benefited from the services rendered (e.g. charges for school lunches), and \$27.9 million was paid through various federal and state grants. Consequently, the net cost of \$195.4 million, after taking into consideration these fees, and subsidies, was paid by the taxpayers of the District and the State of Missouri.

Table 3 shows the total cost of services and the net cost of these services (after charges for services and grants received) for the largest categories of expense of the District for the year ended June 30, 2015. The "net cost" presentation allows District taxpayers to determine the remaining cost of the various categories which were borne by them, and allows them the opportunity to assess the cost of each of these functions in comparison to the perceived benefits received. Costs associated with building operations are not allocated to the various functions and are included in "Other Support Services".

Net Cost of Services For The Year Ended June 30, 2015

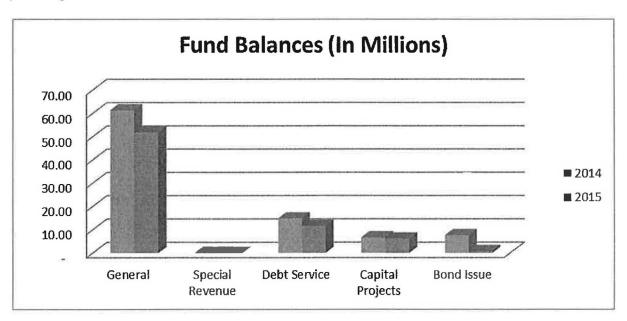

The District's Funds

The District uses funds to control and manage money for particular purposes. Some funds are required to be established by state law or by bond covenants. The fund basis financial statements allow the District to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. These statements also allow the reader to obtain more insight into the financial workings of the District, and assess further the District's overall financial health.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

The District's Funds (continued)

The District's fund balances decreased from total fund balances of \$90.8 million at June 30, 2014 to \$70.7 million at June 30, 2015. This decrease is due primarily to an operating deficit.

To eliminate the deficit balance in the Special Revenue Fund, the District transferred \$56.9 million from the General Fund. The District completed the fiscal year ended June 30, 2015, with combined operating fund balances of \$52 million, as compared to combined operating fund balances of \$61.4 million as of June 30, 2014. Operating fund balances equal approximately twenty-six and thirty-two percent of annual operating expenses for the fiscal years ended June 30, 2015 and 2014, respectively.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget to take into consideration significant changes in revenues or expenditures. The original budget for the District was adopted on June 17, 2014 and the final budget amendment was adopted on June 16, 2015.

Schedules showing the District's original and final budget compared with actual operating results for the general and special revenue funds are provided in the Supplementary Information.

Significant revisions to the general fund were made to add revenues and expenditures for grants received during the year.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

DEBT ADMINISTRATION

At June 30, 2015, the District had outstanding general obligation bonded indebtedness of \$246,704,121, as compared to \$256,146,241 at June 30, 2014. On December 9, 2014, the District issued \$41,740,000 in general obligation refunding bonds. The District used the net bond proceeds to purchase U.S. government securities to advance refund \$43,870,000 of the outstanding 2005A and 2007A general obligation bonds. During the upcoming 2015-2016 fiscal year, \$8,455,000 of the outstanding bonds will be retired, leaving a long-term balance outstanding of \$238,249,121. Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to fifteen (15%) percent of the assessed valuation of the District (including State assessed railroad and utility), plus amounts available in the Debt Service Fund for repayment of this debt. The District's net debt, which is the total bonds outstanding less the amount available in the Debt Service Fund, is in compliance with the debt limit.

Constitutional debt limit	\$ 239,810,261
General obligation bonds payable.	(246,704,121)
Amount available in Debt Service	
Fund	11,664,515
30 000 300 000 000 000	•
Legal Debt Margin	\$ 4,770,655

Also at June 30, 2015 the District had outstanding Certificates of Participation totaling \$6,605,000. During the upcoming 2015-2016 fiscal year, \$1,365,000 of the outstanding certificates will be retired by lease payments from the District, leaving a long-term balance outstanding of \$5,240,000.

Economic Factors and Next Year's Budget

The Hazelwood School District is financially solid. The District's Board of Education's adopted policy is to maintain a minimum of twenty percent of annual operating expenditures in its unrestricted operating fund balances. Historically, the District has only used excess operating balances for one-time capital purchases and infrastructure repairs and improvements. The District anticipates operating budget shortfalls due to decreases in property tax revenue caused by decreases in the District's assessed valuation. Given the balances in excess of twenty percent, the District will use some balances to cover operating deficits for the next 1-3 years. This will allow the District to protect classroom instruction and other services provided to students.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Economic Factors and Next Year's Budget (continued)

St. Louis County levies taxes against real and tangible personal property, other than inventory of merchants and manufacturers and household goods of individuals. The county undergoes reassessment every odd numbered year. The most recent reassessment during 2015 resulted in decreased assessed valuations. This is consistent with a national trend of continuing falling home and business values. Personal property assessed value increased, however, total assessed valuation decreased compared to 2014. The original 2015-16 budget projected an overall increase in total assessed valuation of \$30.6 million, equaling a 1.9% increase. The District's updated tax revenue for the fiscal year ended June 30, 2016 will be approximately \$2 million less than the original budget, and approximately \$337,000 less than the year ended June 30, 2015. The District's tax rates are at the maximum approved by taxpayers, so they cannot be increased to offset the decrease in assessed values without voter approval. The District still expects more stable or increasing revenues from local property taxes for the following 2-3 years based on stabilizing residential and commercial values.

The majority of state funding from the State of Missouri is received through the basic formula apportionment. The updated budget will reflect approximately \$1.1 million more in total state revenue compared to the amount the district received in the 2014-15 fiscal year.

The State of Missouri has experienced budget deficits in the past, which required cuts to state programs and expenditures in order to balance its budget as required by the state constitution, similar to most states across the nation. Nonetheless, the appropriations for K-12 education funding have remained at the same level over the past several years, and increased in 13-14, 14-15 and again for 15-16. However, the state formula is still under-funded by approximately \$500 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Economic Factors and Next Year's Budget (continued)

In response to decreasing revenue in general due to the nation's economic downturn, the district has continued to review all personnel positions and eliminated some positions through attrition. During the past 6-7 years, the District had been preparing for decreasing revenue and a "funding cliff." During the first few years, operating balances increased in order to protect the district's instructional programs during years of greatly reduced revenue. During the 12-13 fiscal year, the district began an extended, detailed review of the entire budget and positions in order to plan for future budgets. This has continued during 13-14,14-15 and 15-16. In addition, during the 13-14 year, the district began extensive community engagement programs for both a strategic plan and instructional programs ("Hazelwood Next"), and to review the budget, operations and make recommendations in order to improve the fiscal stability of the District ("Budget Advisory Committee"). Again in 2015-16, the District budget reflects the use of some of its operating fund balances to protect its instructional programs. Finally, revenue is normally budgeted conservatively to error on the side of caution and make up for unanticipated cuts in state or other revenue.

Interest rates are at historic lows and are projected to remain at the current levels or increase slightly through the 2015-2016 fiscal year, resulting in consistently low investment income.

Enrollment has remained stable or decreased slightly over the past few years and is projected to remain relatively stable or decrease slightly.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED JUNE 30, 2015

Economic Factors and Next Year's Budget (continued)

During 2003, the District's community was involved in Hazelwood 1st, a public engagement process. As part of this process, over one-thousand community members met over a series of informational meetings, and recommended to the Board of Education a three-phase long-range facilities plan. In the first phase of the plan, voters approved issuing \$70 million in bonds in order to construct four new middle schools. The \$65 million in bonds issued during the 2006-07 fiscal year were phase two of this plan. Additions/renovations to nineteen elementary schools have been completed. addition, a new library was added to Central High School. The administration building was completely renovated and includes two additional wings for early childhood and gifted education. In November, 2010, seventy-five percent of District voters approved a \$120 million no-tax-increase bond issue, which has been used to complete phase three of this plan. The District issued approximately \$60 million in bonds in fiscal year 2010-11. During fiscal year 2011-12, another \$20 million in those bonds were issued, along with refunding \$41.5 million in outstanding bonds at lower interest rates. The remaining \$40 million was issued in July, 2013. Phase 3 consisted of classroom/library additions/renovations at the high schools, science lab renovations at the high schools, needed elevators at remaining schools, life/health/safety upgrades, and replacing HVAC equipment with new efficient systems. The district continues to review bond issues and Certificates of Participation (COPS) for refunding opportunities at lower interest rates for debt service savings. The district anticipates a COPS refunding in November, 2015, and a bond refunding in December, 2016.

The largest increase in expenditures is expected to be for salaries and related benefits in order to remain competitive among other districts in the St. Louis metropolitan area. The district is committed to keeping and recruiting the best employees.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

While these Basic Financial Statements are designed to provide full and complete disclosure of the financial condition and operations of the District, citizens groups, taxpayers, students, other District officials, investors or creditors may need further details. To obtain such details, please contact Dwight L. Lindhorst, Assistant Superintendent of Facilities and Finance, at the Hazelwood School District, 15955 New Halls Ferry Road, Florissant, Missouri 63031, or by calling (314) 953-5015 during regular office hours, Monday — Friday, 8:00 a.m. to 4:30 p.m. Mr. Lindhorst's e-mail address is dlindhorst@hazelwoodschools.org.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Hazelwood School District (the "District") operates under the regulations pursuant to Section 162.092 RSMo of the Public School Laws of Missouri, which designates a Board of Education to act as the governing authority. The District provides educational services.

As discussed further in Note 1, these financial statements are presented on the modified cash basis of accounting. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board (GASB).

Principles Determining the Scope of Reporting Entity

The financial statements of the District consist only of the funds of the District. The District has no financial accountability for any other governmental entity, since no other entities are considered to be controlled or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective Board. In addition, the District is not aware of any entity which would exercise such oversight which would result in the District being considered a component unit of the entity.

In addition, the District is associated with other organizations which may include various Parent Teacher Associations (PTA's), booster clubs, etc. Under governmental standards for defining the financial reporting entity, these organizations may be considered to be part of the reporting entity of the District. However, the balances and activities of such organizations have not been included in these financial statements due to the overall immateriality to the District.

Fund Accounting

The accounts of the District are organized on the basis of legally established funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. District resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The District's policy is to close all encumbrances at the end of each fiscal year. The following fund types are used by the District:

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental Funds

Governmental Funds are those through which most functions of the District are financed. The District's expendable financial resources are accounted for through Governmental Funds. The measurement focus is upon determination of changes in the financial position rather than upon net income determination. The following are the District's governmental funds, each of which the District considers to be a major fund:

General Fund

This fund is the general operating fund of the District and accounts for expenditures for noncertified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any expenditures not required or permitted to be accounted for in other funds.

Special Revenue Fund

A special revenue fund accounts for restricted sales tax and revenue sources assigned for the payment of salaries and certain benefits of certified teachers involved in administration and instruction

Debt Service Fund

This fund is used to account for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term debt.

Capital Projects Fund

This fund is used to account for the proceeds of long-term debt, taxes and other revenues assigned for acquisition or construction of major capital assets.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Bond Issue Fund

This fund is used to account for the proceeds of the 2013 general obligation bond issued for facility improvements. The 2013 bond is currently being used to make improvements at high schools, such as libraries, science labs, new STEM (science, technology, engineering and math) studios, and increasing school safety. The bond is also upgrading facilities on a district-wide basis, such as replacing out of date heating and cooling systems, improving handicapped accessibility, improving electric power and technology data infrastructure, and other classroom improvements.

Basis of Presentation

Government-wide Financial Statements:

The statement of net position and the statement of activities present financial information about the District as a whole. These statements include the financial activities of the primary government. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Amounts reported as *program revenues* include (a) charges paid by the students for tuition, fees, or goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as *program revenues* are presented as general revenues and include all property taxes. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

The fund financial statements provide information about the District's funds. A balance sheet and statement of revenues, expenditures, and changes in fund balances are presented. The emphasis of fund financial statements is on *major* governmental funds, each displayed in a separate column. The District considers each of its funds to be major.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus and Basis of Accounting

Measurement Focus:

The government-wide financial statements are prepared using the economic resources measurement focus, within the limitations of the modified cash basis of accounting. The accounting objectives under this measurement focus are the determination of changes in net position, financial position and cash flows. All assets and liabilities, whether current or noncurrent, are reported.

The governmental fund financial statements are prepared using the current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included in the balance sheets. The operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting:

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and fund financial statements are prepared using a modified cash basis of accounting. This basis of accounting recognizes assets, liabilities, net position/fund balances, revenues, and expenditures/expenses when they result from cash transactions except that the purchases of investments are recorded as assets. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, general and leasehold revenue bonds and obligations under capital leases) and certain expenses (such as expenses for goods or services received but not yet paid) are not recorded in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. The County collects the property tax and remits it to the District.

The assessed valuation of the tangible taxable property for the calendar years 2014 and 2013 for purposes of local taxation was \$1,598,735,070 and \$1,583,935,630, respectively.

The blended tax levy per \$100 of the assessed valuations of tangible taxable property for the calendar year 2014 for purposes of local taxation was:

General Fund	\$ 5.3467
Debt Service Fund	0.9400
Total	\$ 6.2867

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2015, aggregated approximately 97% of the current assessment computed on the basis of the levy as shown above.

Pooled Cash and Temporary Investments

Cash resources are combined to form a pool of cash and temporary investments which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained.

The District may invest in United States Treasury bills, United States Treasury notes, bonds, government agency and instrumentality obligations, repurchase agreements collateralized by government securities, time certificates of deposit, bankers' acceptances issued by domestic commercial banks, and commercial paper issued by domestic corporations.

Interest income earned is allocated to contributing funds based on each funds' proportionate share of funds invested.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted Cash and Investments

Restricted cash and investments represent amounts whose use is limited by legal requirements and consist of unexpended bond proceeds, unexpended proceeds from certificates of participation, and amounts escrowed for future general obligation bond principal and interest payments in conjunction with the Missouri School District Direct Deposit Program as discussed in Note 2 and Note 3.

Fund Balance

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes determined by a resolution of the Board of Education. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's adopted policy, amounts may be assigned by the Chief Financial Officer.

Unassigned – includes all amounts not included in other spendable classifications. The District's policy requires a minimum unassigned fund balance of 20% of the prior year General Fund and Special Revenue Fund expenditures in order to cover unexpected expenditures and revenue shortfalls.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Balance (continued)

The details of the fund balances are included in the Governmental Funds Balance Sheet.

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted. The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Interfund Activity

Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. A transfer of \$56,918,722 was made from the General Fund to the Special Revenue Fund to cover the Special Revenue Fund expenditures in excess of revenues.

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

2. CASH AND INVESTMENTS

The District is governed by the deposit and investment limitations of state law. The depository bank is to pledge securities in addition to Federal Deposit Insurance Corporation (FDIC) insurance at least equal to the amount on deposit at all times in accordance with sections 110.010 and 110.020 of the Missouri Revised Statutes.

The District may invest the funds in bonds or any instrument permitted by law for the investment of state money's in accordance with section 165.051 of the Missouri Revised Statutes. The District participates in the Missouri School District Direct Deposit Program which is a mechanism for public school bond repayments through the MOHEFA Bond Program. It authorizes the direct deposit of a portion of the school district's state aid payment by the State of Missouri to a trustee bank that accumulates these payments and then makes the principal and interest payments to the paying agent on the bonds. The direct deposits occur monthly and the balance is withdrawn every six months to pay the debt service requirement of the related bond issues. At June 30, 2015, the District had \$7,989,265 in this program, which has been included in investments.

The District also participates in the Missouri Securities Investment Program (MOSIP). MOSIP is an external investment pool in which a District's monies are pooled with other Districts' monies to purchase investments that are permitted by state statutes. The District's monies purchase a pro-rata share of the pool. A board of directors comprised of Missouri school administrators, school board members, and school business officials provides governance and oversight of MOSIP's operations. The board seeks to maintain a stable net asset value of \$1 per share.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

2. CASH AND INVESTMENTS (continued)

The deposits and investments held at June 30, 2015 and reported at cost, are as follows:

Туре	Maturities	Carrying Value

T		0 : 1/1
Туре	•	Carrying Value
December to Commission to the contract of		
Reconciliation to financial statements:	8	ф со о то гоо
Cash and investments		\$ 60,278,532
Cash and investments - restricted		10,456,781
		\$ 70,735,313
		Ψ 70,100,010

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District requires that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. As of June 30, 2015, none of the District's deposits were exposed to custodial credit risk.

Custodial Credit Risk - Investments - Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the district or its agent but not in the government's name. All investments, evidenced by individual securities, are registered in the name of the District or of a type that are not exposed to custodial credit risk.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

2. CASH AND INVESTMENTS (continued)

Investment Interest Rate Risk – The District minimizes the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by structuring the investments portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter-term securities. Investments in banker's acceptances and commercial paper shall mature in no more than 180 days from purchase date and all other investments shall mature and become payable in no more than five (5) years from purchase date. Maturities of investments held at June 30, 2015, are provided in the schedule above.

Investment Credit Risk – The District has policies in place to minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by pre-qualifying the institution with which the District will do business and by diversifying the portfolio so that potential losses on individual securities will be minimized. At June 30, 2015, the District's investments were rated as follows:

Rating	Amount
AAA (S&P)	\$ 7,989,265
A-1 (S&P)	6,984,276
A-1 (sf) (S&P)	1,995,680
A-1+ (S&P)	12,128,808
AA+ (S&P)	15,100,678

Concentration of Investment Credit Risk – As a means of limiting its exposure to losses arising from concentration of investments, the District's investment policy mandates that the portfolio not have a concentration of assets in specific maturity, specific issuer or specific class of securities. At a minimum, diversification standards by security type and issuer are established as: (a) U.S. treasuries and securities having principal and/or interest guaranteed by the U.S. Government, 100%; (b) collateralized time and demand deposits, 100%; (c) U.S. Government agencies, and government sponsored enterprises, no more than 60%; (d) collateralized repurchase agreements, no more than 50%; (e) U.S. Government agency callable securities, no more than 30%; (f) commercial paper and bankers' acceptances, no more than 50%.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

2. CASH AND INVESTMENTS (continued)

Investments in any one issuer representing 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments) are as follows at June 30, 2015:

Issuer	Investment Type	Percentage
Federal Home Loan Bank	U.S. Agency	16%
Federal National Mortgage Association	U.S. Agency	20%

3. LONG-TERM DEBT

The following is a summary of changes occurring in long-term debt for the year ended June 30, 2015.

	Balance June 30, 2014	Additions	Reductions	Balance June 30, 2015	Amounts Due Within One Year
Governmental Activities: Bonds Payable: General obligation bonds	\$ 256,146,241	\$ 41,740,000	\$ (51,182,120)	\$ 246,704,121	\$ 8,455,000
Certificates of Participation: Certificates	7,925,000		(1,320,000)	6,605,000	1,365,000
Total governmental activities long-term liabilities	\$ 264,071,241	\$ 41,740,000	\$ (52,502,120)	\$ 253,309,121	\$ 9,820,000

Payments on the general obligation bonds are made by the debt service fund. The certificates of participation are paid by the capital projects fund.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

3. LONG-TERM DEBT (continued)

Bonds Payable

Bonds payable at June 30, 2015, consist of:

\$92,550,000 2007A general obligation refunding and improvement bonds, due in varying installments through 2027, average interest rate of 4.66%	\$41,495,000
\$59,000,000 2010A general obligation bonds, due in varying installments through 2030, average interest rate of 6.10%	59,000,000

Repayment of the bond issues are made through the Missouri School District Direct Deposit Program which is a mechanism for public school bond payments. It authorizes the direct deposit of a portion of the school district's state aid payment by the State of Missouri to a trustee bank that accumulates these payments and then makes the principal and interest payments to the paying agent on the bonds.

The District has \$7,989,265 on deposit with Wells Fargo in conjunction with this program, as discussed in Note 2.

The 2010A bonds were issued as "Build America Bonds" and as "qualified bonds under the Internal Revenue Code." Accordingly, the District receives a subsidy payment from the federal government up to 35% of the amount of each interest payment on these taxable bonds.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

3. LONG-TERM DEBT (continued)

Bond Defeasance

On December 9, 2014 the District issued \$41,740,000 in general obligation refunding bonds with interest rates ranging from 2% to 5%. The District used the net bond proceeds to purchase U.S. government securities to advance refund \$43,870,000 of outstanding 2005A and 2007A general obligation bonds with interest rates ranging from 4% to 5%. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the 2005A and 2007A bonds. As a result, that portion of the 2005A and 2007A bonds is considered defeased, and the District has removed the liability from its accounts. The outstanding principal of all defeased bonds is \$40,055,000 at June 30, 2015. The advance refunding reduced total debt service payments by \$3,529,655 resulting in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$3,071,317.

Legal Debt Margin

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to fifteen (15%) percent of the assessed valuation of the District (including State assessed railroad and utility). The legal debt margin, computed excluding the assessed valuation of State assessed railroad and utilities, of the District at June 30, 2015, was:

Constitutional debt limit	\$ 239,810,261
General obligation bonds payable	(246,704,121)
Amount available in Debt Service	,
Fund	11,664,515
Legal Debt Margin	\$ 4,770,655

Certificates of Participation

The District has issued certificates of participation (COPS) evidencing interest in the right to receive rental payments to be paid by the District pursuant to an annually renewable lease-purchase agreement (the "Lease"). The proceeds of the certificates were used and will be used for the acquisition and installation of certain equipment in District buildings designed to reduce energy consumption or operating costs and increases in school safety and security ("Leased Property".) Pursuant to the lease, the District is leasing from the trustee the equipment acquired and installed in connection with the project.

The Lease provides for, among other things, Basic Rental Payments equal to the COPS proceeds. The Certificates are secured by a security interest in the Leased Property.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

3. LONG-TERM DEBT (continued)

Certificates of Participation (continued)

In addition, the Lease provides that the District's obligations are year to year and such obligations do not extend beyond the District's budgeted expenditures for any respective fiscal year. The District has the option to purchase the Trustee's interest in the Leased Property on any date at a purchase price equal to an amount to provide for the Basic Rent Payments on each Basic Rent Payment date through the term of the lease.

Certificates of participation at June 30, 2015, consist of:

\$8,310,000 Series 2006, due in varying installments through 2020, interest rates ranging between 5.3% to 5.65%	\$	3,740,000
\$3,700,000 Series 2011, due in varying installments through 2018, interest rates ranging between 2% to 3%		2,865,000
	e	6,605,000
	Ψ	0,000,000

The following is a schedule of Basic Rent Payments under the Lease, assuming the agreement is renewed each year:

Year EndingJune 30,	4	Principal	·	Interest	9	Total
2016	\$	1,365,000	\$	250,226	\$	1,615,226

2020		815,000		37,694		852,694
	\$	6,605,000	\$	716,379	\$	7,321,379

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

RETIREMENT PLAN

The District contributes to the Public School Retirement System of Missouri (PSRS), a cost-sharing multiple-employer defined benefit pension plan. PSRS provides retirement and disability benefits to full-time (and certain part-time) certified employees and death benefits to members and beneficiaries. Positions covered by PSRS are not covered by Social Security. PSRS benefit provisions are set forth in Chapter 169.010-.141 of the Missouri Revised Statutes. The statutes assign responsibility for the administration of the system to a seven member Board of Trustees. PSRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: The Public School Retirement System of Missouri, P.O. Box 268, Jefferson City, Missouri, 65102, or by calling 1-800-392-6848.

PSRS members are required to contribute 14.50% of their annual covered salary and certain benefits and the District is required to contribute a matching amount. The contribution requirements of members and the District are established and may be amended by the PSRS Board of Trustees. The District's contributions to PSRS for the years ended June 30, 2013 through June 30, 2015 were equal to the required contributions as listed in the table below.

The District also contributes to The Public Education Employee Retirement System of Missouri (PEERS), a cost-sharing multiple-employer defined benefit pension plan. PEERS provides retirement and disability benefits to employees of the district who work 20 or more hours per week and who do not contribute to PSRS. Positions covered by PEERS are also covered by Social Security. Benefit provisions are set forth in Chapter 169.600-.715 of the Missouri Revised Statutes. The statutes assign responsibility for the administration of the system to the Board of Trustees of PSRS. PEERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: The Public Education Employee Retirement System of Missouri, P. O. Box 268, Jefferson City, Missouri, 65102 or by calling 1-800-392-6848.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

4. RETIREMENT PLAN (continued)

PEERS members are required to contribute 6.86% of their annual covered salary and certain benefits and the District is required to contribute a matching amount. The contribution requirements of members and the District are established and may be amended by the Board of Trustees. The District's contributions to PEERS for the years ended June 30, 2013 through June 30, 2015 were equal to the required contributions as listed in the table below.

Year Ended June 30,	PSRS	_PEERS_
2015	\$14,689,763	\$2,367,801
2014	\$14,516,211	\$2,348,741
2013	\$13,968,100	\$2,264,420

5. EMPLOYEE BENEFIT PLANS

The District offers its employees tax-sheltered annuity programs created in accordance with Internal Revenue Code Section 403(b). The plans, available to all District employees, permit them to defer a portion of their salary for investment purposes. The District offers a Section 125 cafeteria plan to all employees. Under this plan, the deferred portion can be used to purchase health insurance benefits.

DEFERRED COMPENSATION PLAN

Employees of the District may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code ("IRC") Section 457. The deferred compensation plan is available to all employees of the District. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency.

NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2015

7. INSURANCE PROGRAM

The District, along with various other local school districts, participates in the Missouri United School Insurance Council (MUSIC), an insurance association for workers' compensation, general liability and property and casualty insurance. The District, along with various other local school districts, also participates in the CSD Insurance Trust, an insurance association for employee medical, dental, life, vision, long term care, and short and long term disability insurance. The purpose of these associations is to distribute the cost of self-insurance over similar entities. These associations require an annual premium payment to cover estimated claims payable and reserves for claims from each entity. The members of these associations have no legal interest in the assets, liabilities or fund balances of the insurance association. However, the District retains a contingent liability to fund its pro rata share of any deficit incurred by these associations should it cease operations at some future date.

8. COMMITMENTS AND CONTINGENCIES

The District is involved in various lawsuits at June 30, 2015. In the District's opinion, based on consultation with legal counsel, these items will be resolved with no material adverse effect on the District.

The District has entered into leases for office equipment, print shop services and network upgrades. Future minimum lease payments are as follows:

Year Ending June 30,	Total
2016	\$ 1,812,389
2017	1,812,389
2018	1,030,020
Total	\$ 4,654,798

The District receives Federal grants and State funding for specific purposes that are subject to review and audit. These reviews and audits could lead to request for reimbursement or to withholding of future funding for disallowed expenditures or other noncompliance with the terms of grants and funding. The District is not aware of any noncompliance with the Federal or State provisions that might require the District to provide reimbursement.

NOTES TO SUPPLEMENTARY INFORMATION JUNE 30, 2015

8. COMMITMENTS AND CONTINGENCIES (continued)

Each year, the County remits certain unresolved tax payments to the District. When County refunds tax payments to those who are successful in their protests, it withholds the refunded amount from future distributions to taxing districts. Normal withholdings by the County are not material in relation to the District's financial position and results of operations.

The District's remaining commitment for uncompleted work under its construction contracts totaled approximately \$761,000 as of June 30, 2015.

9. POST EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note 4, the District allows employees who retire from the District to participate in the District's health, dental and life insurance plans. Upon meeting the retirement requirements per PSRS or PEERS, the employees can elect to participate in the District's plans. The retirees must pay for 100% of their coverage for each plan in which they elect to participate. The premiums are based on a single blended rate used for both active employees and retirees. The difference between the amount the retiree is required to pay and the actual cost to the district is considered to be a post employment benefit. The District has not established an irrevocable trust fund for the accumulation of resources for the future payment of benefits under the plan; benefits are paid on a pay as you go basis. A stand alone financial report is not available for the plan. During the current year, 850 retirees participated in the District's insurance plans and paid premiums totaling \$2,637,554.

SUBSEQUENT EVENT

The District plans to issue refunding certificates of participation in the amount of \$2,985,000 in November 2015. The proceeds of this issuance will be used to refund the Series 2006 certificates of participation.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2015

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67 RSMo, the District adopts a budget for each fund.
- Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. Prior to July 1, the budget is legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the final budgeted amounts.
 - Budgeted amounts are as originally adopted on June 17, 2014, or as amended by the Board of Education on June 16, 2015.
- 6. Budgets are adopted on the modified cash basis of accounting.
- 7. Lapsing of Appropriations At the close of each year, all unspent appropriations revert to the respective funds from which they were appropriated and become subject to future appropriation.
