

Dear Parents/Guardians,

We hope this message finds you well. As we approach the state testing period, we want to provide you with important details regarding the schedule and how you can best support your child during this time. I have attached the schedule below for your reference.

State testing is an essential part of assessing student learning and academic progress. These assessments help us measure how well students are mastering grade-level standards and guide future instruction to best support their learning needs.

To help ensure your child's success during this time, we kindly ask for your support in the following ways:

1. **Attendance matters:** It's crucial for students to be present on testing days. Please avoid scheduling appointments or other activities that may interfere with the testing schedule. If your child is absent, we will arrange for a makeup test, but it is always best for students to test with their class.
2. **A good night's sleep:** Encourage your child to get plenty of rest before testing days. A well-rested student is more alert and better able to concentrate.
3. **Healthy breakfast:** A nutritious breakfast fuels the brain and helps students stay focused. Please ensure your child eats a healthy breakfast at home or arrives at school early to participate in our breakfast program.
4. **Encouragement and positivity:** Help reduce test anxiety by reminding your child to do their best, take their time, and stay positive. Encouraging words from home go a long way in building their confidence.

We appreciate your partnership in making this testing period a smooth and successful experience for our students. IF you have any questions regarding the schedule or testing procedures, please do not hesitate to contact us.

Thank you for your continued support!

Mr. Anthony Robinson, Building Principal  
Mrs. Sharon Scarce, Assistant Principal

Jamestown Elementary School
