Positive Choice Program

Any middle or high school student who has received a long-term suspension as a result of a discipline hearing has the voluntary option of attending the Positive Choice Program. High school students have the privilege of earning credits and middle school students will work toward fulfilling requirements for promotion while attending the program.

In this computer-based program, students will pace themselves appropriately to complete their coursework independently during a three hour session. Two teachers will assist and guide students through the program. A counselor and social worker will provide individual and group counseling sessions focused on decision-making and healthy living choices. A Special School District staff member will provide support to students as well.

Long-term suspension program profile:

- Students in grades 6-12.
- Students may attend as a result of being assigned a long-term suspension.
- There will be two (2) three-hour computer-based instructional sessions available.
- HSD will provide limited bus transportation opportunities.
